

Compact labelling machine for the home

- Create labels up to 12mm in width
- Compact and portable lightweight design
- 8 text styles and special Deco Mode for creative labelling
- Print 1 or 2 lines of text
- Store up to 3 frequently used labels

The ideal entry-level labelling machine for creating labels for all around your home. Children's school books, school equipment, lunch boxes and drinks cups can all be marked with their names so they don't get lost. Use in the kitchen for labelling of spice jars and other storage containers, or to mark the contents of food in your fridge or freezer.

P-touch

Key features at a glance

Prints labels 9mm and 12mm in width

Type one or two lines of text

Special functions for creative labelling

Memory can store up to three frequently used labels

Compact, lightweight design suitable for use by both adults and children

Help get lost school items returned

Every parent knows how easily children's items get lost at school, such as rulers, pencil cases, books, and food/drink containers. Help get them back by labelling with your child's name.

Your ideal kitchen partner

Quickly print labels to identify the contents of your spice and storage jars, and food containers placed in the fridge or freezer to ensure the correct food is defrosted and cooked.

Compact and easy-to-use

Incredibly lightweight and easy-to-hold, the P-touch M95 is indispensable for use around the home and home office. Various functions allow for fun, creative labelling in the kitchen, home office, garage, shed or living room.

Creative labelling with the Deco mode feature

The easy-to-use deco mode has eight design options to create fun labels. Simply choose your design, type your text and let the PT-M95 print your label in the chosen design

Organise your home office

An efficient home is an organised home. Clearly label the contents of files and folders, drawers, shelves and filing cabinets so important information can be found quickly.

Various colours and widths of tapes available

Brother M tape cassettes are available in 9mm and 12mm widths, and in several colours to suit many labelling applications around the home. Why not buy several different colours and widths, and keep them handy?

M-tape range

9mm	M821	M921	MK221
12mm	M831	M931	MK231
